

BENEFITS OF ASSOCIATE MEMBERSHIP

As a product and service provider, you will find there is no better exposure to potential clients than being actively involved in the activities of the Arizona Private School Association (APSA). Your visibility and one-on-one contact with member schools is the best way to successfully build your business. APSA offers the following services to its Associate Members:

- **Introduction-** draft your letter to APSA members announcing your membership to the Association, we can email your letter or print and send it out to our members.
- **Website Listing-** your company will be listed in the APSA directory on our website at www.arizonapsa.org including a free company description with a [link to your website](#). Our directory is often the first resource schools turn to when looking for new service providers.
- **Referrals-** APSA exclusively refers our school members and others interested to our “approved vendors” for products and services.
- **Marketing-** You will be given a special APSA Member Logo to use on your marketing materials. You will also be given a Certificate of Membership.
- **APSA Committees-** You are welcome to become a member one of our committees: Legislative, Continuing Education, Membership/Partnership or Public Relations.
- **Access to Membership & APSA Staff-** you will receive a mailing list of member schools with contact name, address, phone numbers and email addresses at time of joining and renewal. Call APSA anytime for information about individual schools or sector activity or look up members on our website.
- **Sector Information-** members receive all publications, mailings & correspondence providing up-to-date information that impacts the private career education sector,
- **Exhibiting & Sponsorship Opportunity-** Associate members receive advanced notice, discounts & priority registration to participate in the APSA Annual Conference held in May.
